

## USE OF MARKER PENS ON BOARD AIRCRAFT

### **Issued under the Authority of:**

Steve Green  
CFI SPA O

Contact details: [steve.green@cae.com](mailto:steve.green@cae.com)

### **Background Information:**

Permanent Marker Pen ink on G1000 display

### **Abbreviations:**

CAE OAA	CAE Oxford Aviation Academy
NOTAC	Notice to Aircrew

### **Policy:**

All crews are reminded that the use of Permanent Ink marker pens is not permitted in CAE Oxford Aviation Academy aircraft. This is a critical item in G1000 equipped aircraft as any such markings cannot be removed from the VFD surface.

Similarly crews should ensure that the screens are not touched when items on the display are being pointed out as touching them will leave finger marks that will cause a deterioration to the visual image.

### **Exceptions and Review:**

Exceptions may not be granted

In the presence of new safety/training operational data, this policy may be rescinded or revised.

### **Scope**

CAE Oxford Aviation Academy
