

CAE OAA Phoenix Flight Crews,

Over the next couple of days you will see newly painted number markings (see diagram below) painted at the ends of our ramp. These are to be used as reporting points when we call ground control for our taxi clearance. As soon as these are painted, we will be expected to use them.

Our initial request should go like this – Ex. *“Falcon Ground, Oxford 123, **Spot 5**, AJ Departure”*
